Misaduenture. 8274 ☞ **Misauenture**, or **Misaduenture.** commeth of the French Mesaduenture, i. infortunium. In our Common Law it hath an especiall signification for the killing of a man, partly by negligence, and partly by chaunce. As if one thinking no harme, dissolutely throweth a stone, wherewith he killeth another: or shooteth an arrow, &c. For in this case he committeth not felonie, but only leeseth his goods, and hath pardon of course for his life. ¶ Stawnf. pl. cor. li. 1. ca. 8. ¶ Brit. ca. 7. distinguisheth betweene Auenture and Misauenture. Auenture hee maketh to bee meere chaunce, as if a man being vpon or neere the water, bee taken by some sudden sicknesse, and so fall in, and is drowned: or into the fire, and be burned to death. Misauenture, he maketh, where a man commeth to his death by some outward violence, as the fall of a tree, or of a gate, the running of a cart-wheele, the stroke of a horse, or such like. So that Misauenture in Stawnfords opinion is construed somewhat more largely then Britton vnderstandeth it. ¶ West. part. 2. symb. tit. Inditement, sect. 48. maketh homicide casuall, to be meerely casuall or mixt. Homicide by meere chaunce, he defineth sect. 49. to be, when a man is slaine by meere fortune, against the minde of the killer: as if one hewing, the axe flieth off the haft, and killeth a man. And this is all one with Brittons misauenture. Homicide by chaunce mixed he defineth, sect. 50. to bee, when the killers ignorance or negligence is ioined with the chaunce: as if a man loppe trees by an high way side, by which many vsually trauell, and cast downe a bough, not giuing warning, &c. by which bough a man passing by is slaine.

8392 ☞ Mortgage. G. Mort-gage, Mort-gaige, (Mortuum vadium vel Morgagium) is compounded of two French words (Mort, i. mors, & Gage, i. pignus, merces.) It signifieth in our common Law a pawne of Land or Tenement, or any thing moueable, laid or bound for money borrowed, peremptorily to be the creditors for euer, if the money be not paied at the day agreed vpon. And the creditor holding Land or Tenement vpon this bargaine, is in the meane time called tenant in mortgage. It seemeth that the cause why it is called Mort-gage, is for that it standeth in doubt, whether the feoffor or the borrower (as you may call him) will pay the money at the day appointed, or not. And if he faile to pay, then the Land which he laid in gage, vpon condition of payment of the money, is gone from him for euer, and so dead to him vpon condition. But if he pay the money, then is the gage dead to the feoffee or tenant, and for this cause called Mortuum vadium, Morgage. ¶ New Termes of Law.

8397 ☞ Mortmaine, Manus mortua. Vi. supra. It signifieth in the Common Law, an alienation of lands or tenements to any corporation, guilde, or fraternitie, and their successours, as Bishops, Parsons, Vicars, &c. which may not be done without licence of the King, and the Lord of the Manour. The reason of the name proceedeth from this, as I conceaue it, because the seruices and other profits due for such lands, as escheates, &c. come into a dead hand, or into such a hand as holdeth them, and is not of power to deliuer them, or any thing for them, backe againe. ¶ Magna charta, ca. 36. & An. 7. Et legem hanc Manum mortuam vocarunt, quòd res semel datæ collegijs Sacerdotum, non vtique rursus venderentur, velut mortuæ, hoc est, vsui aliorum mortalium in perpetuum ademptæ essent. 8439-1 ☞ **Mulier,** *is a word vsed in the Common Law, but how aptly* Mulier *quid.*
as the Author of the new termes of Law *saith, he could not tell. For according to the proper signification,* Mulier *is a defiled woman, as* Vlpian *saith, or rather* a woman that hath had the company of a man, &c. *but in our Common Law it is otherwise taken for one that is* lawfully begotten and borne, *and is alwaies vsed* in comparison with a bastard, *only to shew a difference betweene them.* As for example: *A man hath a* sonne of a woman before mariage, *and that is called* a bastard, and vnlawfull: *and after he marieth the mother of the Bastard,* and they haue another sonne, *this second sonne is called* Mulier, *that is to say, lawfull,* and he shall be heire vnto his father: *but that other cannot be heire to any man, because it is not knowne nor certaine* in the iudgement of the Law, *who was his father, and for that cause is said to be* no mans sonne, *or* * the sonne of the people, *and so without father according to these old* * The sonne of the people.
verses:

To whom *the people* father is, *to him* is father none at all:
To whom the people *father is,* well fatherlesse we may him call.

And alwaies you shall finde this addition to them, Bastard eldest, *and* Mulier yoongest, *when they be compared together.* Why hee should bee called *Mulier,* it may be that *the Latine word* Mulier, *which is generall for a woman, &c.* vt suprà, *hath beene restrained and applied as the Spanish* Mugér, *the Italian* Móglie, *comming of the Latine* Mulier, *and the French* Femme *comming of the Latine* Fœmina, *which three words in those three tongues are only vsed for* a wife, *as in Spanish* Mi Mugér, *in Italian* Mia Móglie, *in French* Ma femme, *i. in Latine* Mea vxor, *my wife, and not* mea mulier, mea fœmina, *my woman: so this word in the Common Law* Mulier or lawfull begotten, *by* Synecdoche, *signifies,* this is the wife or my wiues, *when as the other,* viz: the bastard, *was the fœmina,* or my womans or my wenches childe, *i. a bastard borne out of wedlocke or lawfull mariage.*

Pain fort & dure, a bitter and a hard paine and punishment.

8897 ☞ Pain fort & dure, Pœna fortis & dura, is in true French Peine forte & dure. It signifieth in our Common Law, an especiall punishment for those, that being arraigned of felonie, refuse to put themselues vpon the ordinary triall of God and the Countrie, and thereby are mute, or dumbe, or as mute in interpretation of Law. This (as Stawnf: thinketh, pl. cor. 2. cap. 60.) is founded vpon the Statute of Westm: 1. cap. 12. an. 3. Ed. 1. His reason is, because Bract: who writ before that Parliament, maketh no mention of it: and Brit: writing after that time, toucheth it in his 4. chapter, fo. 11. viz. in wordes to this effect. If they will not acquite themselues, * let them be put to their penance, vntill such time as they doe desire triall: and let the penance be such: * viz. Let them be bare-legged, without girdle, and without hat or cap, in their coate only, and lye in prison vpon the naked earth day and night. And let them eate no bread, but of barley and branne, nor drinke any other then water, and that vpon that day when they eate not. And let them be chained. Stawnf: in his said 60. chap. of his booke, expoundeth it more plainely and particularly in this sort. And note that this strong and hard paine shall be such: sc. He shall be sent back to the prison whence hee came, and laied in some low darke house, where he shall lye * naked vpon the earth, without any litter, rushes, or other clothing, and without any raiment about him, but only some thing to couer his priuie members. And he shall lye vpon his back, with his head couered and his feet. And one arme shall bee drawne to one quarter of the house with a cord, and the other arme to an other quarter: and in the same manner let it be done with his legges: and let there bee layed vpon his body yron and stone, so much as he may beare or more: and the next day following, he shall haue three morsels of Barly bread without drink: and the second day hee shall haue drinke three times: and as much at each time, as he can drinke, of the water next vnto the prison doore, except it be running water, without any bread. And this shall bee his diet vntill he dye.

b ☞ Peeres (pares.) It signifieth in our common Law, plurally those, that are impanelled in an Enquest vpon any man, for the conuicting and clearing him of any offence, for the which he is called in question. And the reason thereof is, because the course and custome of our Nation is, to trie euery man in this case by his equals. ¶ West: 1. cap. 6. an. 3. Ed. 1. So Kitchin vseth it, fol. 78. in these words: Mais si le amerciament soit affirre per pares. And this word in this signification, is not in vse with vs onely, but with other Nations also. For Pares sunt conuassali, quorum sententia vassallus propter feloniam est condemnatus. ¶ Barklaius de regno. lib. 4. cap. 2. Et pares sunt qui ab eodem Domino feudum tenent. ¶ Lib 1. Feud: cap. 26. But this word is most notoriously vsed for those that be of the Nobilitie of the Realme, and Lords of the Parliament: and so is it vsed in Stawnf: pl. of the Crowne, lib. 3. cap. Triall per les Peeres. being the first. The reason whereof is, because though there be a distinction of degrees in our Nobilitie, yet in all publike actions they are equall: as in their voices in Parliament, and in passing vpon the triall of any nobleman, &c. This appellation seemeth to be borrowed from Fraunce, and from those * 12. Of whom you may reade Vincentius Lupanus, de Magist: Franc: lib. 1. cap. Pares Franciæ. So that we, though we haue borrowed the appellation, and applied it with some reason to all that are Lords of the Parliament, yet haue we no set number of them, because the number of our Nobles may be more or lesse, as it pleaseth the King.

The tenant pleaded that the wife was an alien, borne in Portugal, without the ligeance of the King, and iudgement was asked whether shee would be answered. f ☞ Personall (Personalis) hath in our Common-Law one strange signification, being ioyned with the substantiue, things, goods, or chatels: as things personall, goods personall, chatels personall: for thus it signifieth any corporeall and moueable thing belonging to any man, bee it quicke or dead. b-1 a **Prebendarie**. Quid olim fuerit exactissimè docet ¶ Fr. Duarenus. Vi. ☞ **Prebend** subsequent:

b-2 ☞ **Prebend** (Præbenda) is the portion which euery member, or Canon of a Cathedrall Church, receiueth in the right of his place, for his maintenance. And though vse haue wrought the Latine word into the nature of a Substantiue: yet I thinke it originally to be an Adiectiue, or Participle, and to haue beene ioined with pars or portio, and so Pars or Portio præbenda, a part allowed: as Canonica portio, which is in a manner all one in signification: aut à præbendo concilio Decano. Howbeit, Canonica portio, is properly vsed for that share which euery Canon or Prebendarie receiueth yeerely out of the common stocke of the Church: and Præbenda is a seuerall benefice rising from some temporall land, or Church appropriated, toward the maintenance of a Clerke, or member of a Collegiat Church: and is commonly surnamed of the place, whence the profit groweth. And Prebends be either simple, or with dignitie. Simple Prebends, be those that haue no more but the reuenue toward their maintenance. Prebends with dignitie, are such, as haue some iurisdiction annexed to them, according to the diuers orders in euery seuerall Church. Of this see more in the title, De Præbend: & Dignit: in the Decretals. Alciat saith, that Præbenda in the plurall number and neuter gender, was anciently vsed, as now Præbenda in the singular number and feminine gender is vsed. ¶ Parerg: ca. 43.

b ☞ **Precept**, Præceptum, is diuersly taken in the Common Law: sometime for a commandement in writing sent out by a Iustice of peace, or other, for the bringing of a person, one or more, or records before him. Of this you haue examples of diuers in the Table of the ¶ Regester Iudiciall. And this vse seemeth to be borrowed from the customes of Lombardie, where præceptum signifieth scripturam vel instrumentum, ¶ Hot: in verb: feud: & lib: 3. comment: in libros feudorum, in præfatione. Sometime it is taken for the prouocation, whereby one man inciteth another to commit a felonie, as theft or murder, ¶ Stawnf: pl: cor: fol: 105. Bracton calleth it præceptum or mandatum, li. 3. tr. 2. ca. 19. whence a man may obserue three diuersities of offending in murder: Præceptum, fortia, consilium: Præceptum being the instigation vsed before hand: fortia, the assistance in the fact, as helpe to binde the partie murdered or robbed: consilium, aduice either before or in the deede. The Ciuilians vse mandatum in this case, as appeareth by Angelus in tractat: de maleficijs, vers: Sempronium mandatorem.

c ☞ **Preceptories**, ¶ Ann. 32. 9564 ☞ **Precipe quod reddat**, is a Writ of great diuersitie, touching both the forme and vse: for better declaration whereof see **Ingressu** & **Entrie**. This forme is extended as well to a writ of right, as to other writs of entry or possession, ¶ Old: nat: br: fo. 13. and Fitzh: nat: br: fo. 5. And it is called sometime a writ of right close, as a præcipe in capite, when it issueth out of the Court or common plees, for a tenent holding of the King in chiefe, as of his Crowne, and not of the King, as of any honour, Castell, or Manour. ¶ Regist: orig: fol. 4. b. b ☞ Priuiledge (Priuilegium) is defined by Cicero in his Oration Pro domo sua, to be lex priuata homini irrogata. Frerotus in paratitlis ad tit: Decretalium de priuilegijs, thus defineth it. Priuilegium est ius singulare, hoc est, priuata lex, quæ vni homini, vel loco, vel Collegio, & similibus alijs conceditur: cap: priuil: distinct: 3. Priua, n. veteres dixere, quæ nos singula dicimus. It is vsed likewise in our Common-law, and sometime for the place, that hath any speciall immunitie, ¶ Kitchin: fol. 118. in the words: where debters make fained gifts and feofements of their land and goods to their friends and others, and betake themselues to priuiledges, &c. Priuiledge is either personall, or reall: * a personall priuiledge is that, which is granted to any person, either against or beside the course of the Common-law: as for example, a person called to be one of the Parliament, may not be arrested either himselfe, or any of his attendance, during the time of the Parliament. * A priuiledge reall is that, which is granted to a place, as to the Vniuersities, that non of either may bee called to Westminster Hall, vpon any contract made within their owne precincts. And one toward the Court of Chauncerie, cannot originally be called to any Court, but to the Chauncerie, certaine Cases excepted. If he be, hee will remoue it by a writ of priuiledge grounded vpon the statute, ¶ An. 18. Edw: 3. See the new booke of Entries: verbo Priuiledge.

9663-1 ☞ Probat of Testaments (Probatio Testamentorum) is the producting and insinuating of dead mens willes, before the Ecclesiasticall Iudge, Ordinarie of the place, where the partie dieth. And the Ordinarie in this case is knowne by the quantitie of the goods, that the partie deceased hath out of the Dioces, where he departed. For if all his goods be in the same Dioces, then the Bishop of the Dioces, or the Archdeacon (according as their composition or prescription is) hath the probate of the Testament: if the goods be dispersed in diuers Dioces, so that there be any summe of note (as fiue pounds ordinarily) out of the Dioces where the partie led his life: then is the Archbishop of Canterburie the Ordinarie in the case by his Prerogatiue. For whereas in ould time the Will was to be proued in euery Dioces, wherein the partie deceased had any goods: it was thought conuenient both to the subiect, and to the Archiepiscopall See, to make one proofe for all before him, who was and is of all, the generall Ordinarie of his Prouince. But there may be anciently some composition betweene the Archbishop and an inferiour Ordinarie, whereby the summe that maketh the prerogatiue, is aboue fiue pound. See Prerogatiue of the Archbishop. This probate is made in two sorts, either in common forme, or per testes. The proofe in common forme, is onely by the oath of the Executor, or partie exhibiting the will, who sweareth vpon his credulitie, that the Will by him exhibited, is the last Will and Testament of the partie deceased. The proofe, per testes, is when ouer and beside his oath, he also produceth witnesses, or maketh other proofe, to confirme the same, and that in the presence of such as may pretend any interest in the goods of the deceased, or at the least in their absence, after they haue beene lawfully summoned to see such a Will proued, if they thinke good. And the later course is taken most commonly, where there is feare of strife and contention betweene the kindred and friends of the partie deceased about his goods. For a will proued onely in common forme, may be called into question any time within thirtie yeares after by common opinion, before it worke prescription.

If but fiue pound out of the Dioces, the Will to be proued in the Prerogatiue Court.

And whereas the writings of our Common Lawyers sometime call that the Processe, by which a man is called into the Court, and no more: the reason thereof may be giuen, because it is the beginning or the principall part thereof, by which the rest of the businesse is directed, according to that saying of Aristotle, ἡ ἀρχὴ ἥμισυ τοῦ παντός. The former is vsually a Capias, Capias aliâs, and Exigi facias. The second is either vpon Enditement, or Presentment, or Information: that vpon enditement or presentment, is all one: and is either generall, and that is a Venire facias, vpon which if the partie be returned sufficient, then is sent sent out a Distringas infinitè vntill he come: if he be returned with Nihil habet, then issueth out a Capias, Capias aliâs, Capias pluriès, and lastly an Exigi facias. The speciall processe is that, which is especially appointed for the offense by statute: for the which he referreth his reader to the 8. chapter of his 4. booke, being very different.

9673 ☞ Procters of the Clergie (Procuratores Cleri) are those which are chosen and appointed to appeare for Cathedrall or other Collegiate Churches, as also for the common Clergie of euery Diocesse, at the Parlament, whose choice is in this sort. Then the Archbishops procede in their accustomed course. One example may serue to shew both. The Archbishop of Canterburie vpon his Writ receiued, directeth his letters to the Bishop of London, as his Deane prouinciall, 1. §. statuimus de pœnis & verb. tanquam in gloss. first citing himselfe peremptorily: and then willing him to cite in like maner all the Bishops, Deanes, Archdeacons, Cathedrall and Collegiate Churches, and generally all the Clergie of his Prouince, to the place, and against the day prefixed in the Writ. But directeth withall, that one Proctor sent for euery Cathedrall or Collegiate Church, and two for the body of the inferiour Clergie of each Diocesse, may suffice. And by vertue of these Letters authentically sealed, the said Bishop of London directeth his like Letters seuerally to the Bishop of euery Diocesse of the Prouince, citing them in like sort, and commanding them not onely to appeare, but also to admonish the said Deanes and Archdeacons, personally to appeare, and the Cathedrall and Collegiate Churches, as also the common Clergie of the Diocesse, to send their Proctors to the place, and at the day appointed: and also willeth them to certifie the Archbishop the names of all and euery so monished by them, in a skedule annexed to their letters certificatorie. 9788-2 ☞ Purgation (Purgatio) is a clearing of a mans selfe from a crime, whereof he is probably and publikely suspected, and thereof denounced to a Iudge. Of this there was great vse in England touching matters of felonie imputed to Clerkes in former time, as appeareth by ¶ Stawnf: pl. cor. li. 2. ca. 48. See Clergie. It is still obserued for matter pertaining to the Ecclesiasticall Court, as suspicion, or common fame of incontinencie, or such like. * Purgatio is either canonicall (canonica) or vulgar, (vulgaris.) Canonicall, is that which is prescribed by the Canon Law: the forme whereof is vsuall in the spirituall Court, the man suspected taking his oath that he is cleere of the fault obiected, and bringing so many of his honest neighbours, being not aboue twelue, as the Court shall assigne him, to sweare vpon their consciences and credulitie, that he sweareth truly, or hath taken a true oath. * Vulgar purgation, was by fire, or water, or by combat, vsed by Infidels, and Christians also, vntill by the Canon Law it was abolished, ¶ tit. 15. de purg. can. & vulg. in Decretalibus. Combat, though it be lesse in vse then it was, yet is it, and may be still practised by the Lawes of the Realme, in cases doubtfull, if the Defendant chuse rather the Combat then other triall. See Ordael. See Combat.

9791 ☞ Purlieu, or Purlue, is all that ground neere any Forest, which being made Forest by H. 2. R. 1. or King Iohn, were by perambulations graunted by H. 3. seuered againe from the same, ¶ Manwood par. 2. of his Forest Lawes, ca. 20. And he calleth this ground either Pourallee, i. perambulationem, or purlieu and purluy: which hee saith, bee but abusiuely taken for pourallee, vbi supra, num. 3. But it may also come of two French words, pur, i. purus, and lieu, i. locus: because that such grounds as were by those Kings subiected to the Lawes and ordinances of the Forest, are now cleered and freed from the same: for as the Ciuilians call that purum locum, qui sepulchrorum religioni non est obstrictus, §. 9. de rerum diuis: in inst: so, no doubt, in imitation of that very point, our Auncestours called this purlieu, i. purum locum, because it was exempted from that seruitude or thraldome, that was formerly laid vpon it. So ager purus est, qui neque sacer, neque sanctus, neque religiosus, sed ab omnibus huiusmodi nominibus vacare videtur, l. 2. §. 4. ff. de relig. & sumpt. funerum. And therefore Cromp: Purraile is not much amisse, fol. 153. of his Iurisd: because we may also deriue it from the French words pur, i. pure, and allee, i. a cleere or free walke or passage: or pour, for, luy, him, as it were free for the pourlieu men. And where it is sometime called Pouralee, that may and doth come from pur, and allee, i. itio, profectio, ambulatio, because hee that walketh or courseth within that compasse, is cleere enough from the lawes or penalties incurred by them which hunt within the precincts of the Forest. See the ¶ Stat: Ann. 33. Ed. 1. Stat: 5. Purlieu.

9792 ☞ Purlie, or Pourlieu man, is he that hath ground within the purlieu, and being able to dispend 40. s. by the yeere of freehold, is vpon these 2. points licensed to hunt in his owne purlieu. ¶ Manwood part: 1. of his Forest Lawes, pag. 151. & 177. But what obseruations he must vse in his hunting, see him pag. 180. 181. 186. See him likewise part. 2. ca. 20. num. 5. 8. 9. &c. See Purlieu supra.

10093 ☞ **Record** (Recordum) commeth of the Latine (Recordari.) The word is both French and English, and in both tongues signifieth an authenticall or vncontroulable testimonie in writing, ¶ Brit. cap. 27. and Lamb: Eirenar: lib. 1. cap. 13. In the grand Custumarie of Normandie, there are seuerall chapters of diuers Records, expressing whose presence in each of the Courts, is sufficient to make that which is enacted to be a record: viz. the 102. chap. where you haue words to this effect. The record of the Kings Court, is a record of things done before the King. All things done before the King, so hee haue one other witnesse. This Record may he and other make. If he himselfe will not make it, it may be made by three others. The next chapter, viz. the 103. sheweth how many persons suffise to make a Record in the Exchequer. The next how many in an Assise, &c. I thinke in our Courts (especially the Kings Courts) we neede not stand much vpon the number of Recorders or witnesses, for the strength of the testimonie which the Record worketh: but that we take it sufficient which is registred in each Court, ¶ Glanu: lib. 8. cap. 8. ¶ Bract: lib. 3. tract. 2. cap. 37. num. 4. ¶ Brit: in the Proeme of his booke saith, That the Iustices of the Kings Bench haue a record, the Coroner, the Vicount, Iustices of the Exchequer, Iustices of Goale deliuery, the Steward of England, Iustices of Ireland, Iustices of Chester, Iustices assigned by the Kings letters Patents, in those causes they haue commission to take knowledge of. All which, as I take it, must bee vnderstood with that Caueat of Brooke, tit. Record, num. 20. & 22. that an act committed to writing in any of the Kings Courts, during the terme wherein it is written, is alterable, and no Record: but that terme once ended, and the said act duly enrolled, it is a Record, and of that credit, that admitteth no alteration, or proofe to the contrary. Yet see my Lo: Cokes Reports, lib. 4. Rawlins case, fol. 52. b. An. 12. Ed. 2. cap. 4. It is said, that two Iustices of either Bench haue power to record Non suites and Defaults in the Country. It appeareth by Bract: lib. 5. tract. 2. cap. 1. & 11. that 4. Milites habent recordum, being sent to view a partie essoined de malo lecti, and li. 5. tract. 1. cap. 4. num. 2. that Seruiens Hundredi habet recordum in testimonio proborum hominum. And in the Statute of Carleil, made An. 15. Ed. 2. it is said that one Iustice of either Bench, with an Abbot, or a Prior, or a Knight, or a man of good fame and credence, hath a record in the view of one that is said by reason of sicknesse, to bee vnable to appeare personally for the passing of a fine. And An. 13. H. 4. cap. 7. & An. 2. H. 5. cap. 3. that two Iustices of Peace, with the Shirife or vndershirife, haue power to record what they finde done by any in a riot or rout, &c. That which is before mentioned of Brit: touching the Shirife, seemeth to be limited by Fitzh: nat: br: fol. 81. D. Who alloweth him a Record in such matters only, as he is commaunded to execute by the Kings writ, in respect of his office. And thence it commeth that Kitch: fol. 177. saith that the Escheatour and Shiriue bee not Iustices of record, but officers of record. In which words he signifieth, that their testimonie is authenticall only in some certaine things that are expresly inioyned them by vertue of their commission, as Ministers to the King in his higher Courts, whereas Iustices of Record haue in generalitie a record for all things within their cognisance done before them as Iudges, though not expresly or particularly commanded, ¶ Fitzh: nat: br: fol. 82. in principio, something explaneth this point, writing to this effect: Euery act that the Shiriue doth by vertue of his commission, ought to bee taken as matter of record, no lesse then the Iustices of peace. His reasons bee two: the former, because his patent is of record: the other, because he is a conseruatour of the peace. And then hee addeth that the Plees held before him in his Countie be not of record. Yet is the County called a Court of record. Westm: 2. cap. 3. An. 13. Ed. 1. But it seemeth by Brit: cap. 27. that it is only in these causes, whereof the Shiriue holdeth plee by especiall writ, and not those that he holdeth of course or custome. And in that case also it may be gathered out of the same Author, that hee hath a record, but with the testimony of those annexed, that be suiters to the Court. Which seemeth to agree with Bract: wordes aboue specified. Seruiens Hundredi habet recordum in testimonio proborum hominum. And to this purpose reade Glanuile, li. 8. cap. 8. 9. 10. One Iustice vpon view of forcible detinue of land, may record the same by Statute Ann. 15. R. 2. cap. 2. The Maior and Constables of the Staple, haue power to record recognisances of debt taken before them, Ann. 10. H. 6. cap. 1. The King may make a Court of record by his graunt, ¶ Glanu: lib. 8. cap. 8. ¶ Brit. cap. 121. as for example: Q. Elizab: of worthy memorie by her charter dated 26. Aprilis, An. 3. Regni sui, made the Consistorie Court of the Vniuersitie of Cambridge a Court of Record. There are reckoned among our common Lawyers three sorts of records: viz. A record iudiciall, an attainder, &c. A Record ministeriall vpon oath, as an office found. A Record made by conueyance by consent, as a fine, deede enrolled, or such like, ¶ Coke, lib. 4. Andrew Ognels case fol. 54. b. — A Record.

10094 ☞ **Recordare facias,** or Recordari facias, is a Writ directed to the Shyreeue, to remoue a cause depending in an inferiour Court, to the Kings Bench, or Common Pleas, as out of a Court of auncient Demesne, Hundred, or Countie, ¶ Fitzh: nat: br: fol: 71. B. out of the Countie Court, ¶ Idem, fol: 46. B. or other Courts of Record, ¶ Idem, fol: 71. C. & 119. K. Howbeit, if you will learne more exactly, where, and in what cases this Writ lieth, reade ¶ Brooke in his Abridgement, titulo Recordare & pone. It seemeth to be called a Recordare, because the forme is such, that it commandeth the Shyreeue to whom it is directed, to make a record of the proceeding by himselfe and others, and then to send vp the cause. Whereby it appeareth, that those which were necessarie Iudges in the Duke of Normandies Courts, were called Recorders: and who they were, is shewed ca. 9. of the said booke. And that they, or the greater part of them, had power to make a Record, it is euident in the 107. chapter. * Heere in England a Recorder is he, whom the Maior, or other Magistrate of any Citie or Towne Corporate, hauing iurisdiction, or a Court of Record within their precincts by the Kings graunt, doth associate vnto him for his better direction in matters of Iustice and proceedings according to Law. c ☞ **Recouerie,** Recuperatio. It signifieth in our Common Law an obtaining of any thing by iudgement or triall of Law: as * Euictio doth among the Ciuilians. But you must vnderstand, that there is a true recouerie, and a fained. A true recouerie, is an actuall or reall recouerie of any thing, or the value thereof, by Iudgement: As if a man sued for any land, or other thing moueable or immoueable, and haue a verdict, and Iudgement for him. * A fained recouerie is (as the Ciuilians call it) quædam fictio Iuris, a certaine forme or course set downe by Law, to be obserued for the better assuring of lands or tenements to vs. And for the better vnderstanding of this, reade ¶ West: part: 2. symb: tit: Recoueries, sect: 1. who saith, that the end and effect of a recouerie, is to discontinue and destroy Estates, Tailes, Remainders, and Reuersions, and to barre the former owners thereof. And in this formalitie there be required three parties: viz: the Demaundant, the Tenent, and the Vowchee. The Demaundant is he that bringeth the Writ of Entrie, and may be termed the Recouerer. The Tenent is hee, against whom the Writ is brought, and may be termed the Recoueree. The Vowchee is he, whom the Tenent vowcheth or calleth to warrantie, for the land in demaund, ¶ West: vbi supra. In whom you may reade more touching this matter. But for example to explaine this point: A man that is desirous to cut off an estate taile in lands or tenements, to the end, to sell, giue, or bequeath it, as himselfe seeth good, vseth his friend to bring a Writ vpon him for this land. He appearing to the Writ, saith for himselfe, that the land in question came to him or his auncestors from such a man or his auncestor, who in the conueiance thereof bound himselfe and his heires to make good the title to him or to them to whom it was conueied. And so he is allowed by the Court to call in this third man, to say what he can for the iustifying of his right to this land, before he so conueied it. The third man commeth not: whereupon the land is recouered by him that brought the Writ, and the tenent of the land is left for his remedie to the third man, that was called, and came not in to defend the tenent. And by this meanes the entaile which was made by the tenent or his auncestor, is cut off by iudgement heereupon giuen: for that he is pretended to haue no power to entaile that land, whereunto he had no iust title, as now it appeareth: because it is euicted or recouered from him. This kinde of recouerie, is by good opinion, but a snare to deceiue the people, ¶ Doct. & Stud. ca. 32. dial. 1. fol. 56. a. This fained recouerie is also called a common recouerie: and the reason of that epitheton is, because it is a beaten and common path to that end, for which it is ordained, viz: to cut off the estates aboue specified. See the new booke of Entries, verbo Recouerie. A true recouerie is as well of the value, as of the thing: for the better vnderstanding whereof, know, that (in valew) signifieth as much as (Illud quod interest) with the Ciuilians. For example: If a man buy land of another with warrantie, which land a third person afterward by suit of Law recouereth against me, I haue my remedie against him that sold it me, to recouer in value, that is, to recouer so much in money as the land is worth, or so much other land by way of exchange, ¶ Fitzh: nat. breu. fol. 134. K. To recouer a warrantie, ¶ Old nat. br. fol. 146. is, to proue by iudgement that a man was his warrant against all men for such a thing. — * Euictio ictorum. — * A fained Recouerie.

10105 ☞ **Recto,** is a Writ, called in English, a Writ of Right, which is of so high a nature, that whereas other Writs in reall actions, be onely to recouer the possession of the land or tenements in question, which haue beene lost by our auncestor or our selues, this aimeth to recouer both the seisin, which some of our auncestors or wee had, and also the propertie of the thing, whereof our auncestor died not seised, as of fee: and whereby are pleaded and tried both the rights together: viz: as well of possession, as propertie. In so much, as if a man once lose his cause vpon this Writ, either by Iudgement, by Assise, or Battell, he is without all remedie, and shall be excluded (per exceptionem rei iudicatæ) ¶ Bract. li. 5. tract. 1. cap. 1. & seq. where you may reade your fill of this Writ. It is diuided into two species: Rectum patens, a Writ of right patent: and Rectum clausum, a Writ of right close. This the Ciuilians call Iudicium petitorium. The Writ of right patent, is so called, because it is sent open, and is in nature the highest Writ of all others, lying alwaies for him that hath fee simple in the lands or tenements sued for, and not for any other. And when it lieth for him that chalengeth fee simple, or in what cases, see ¶ Fitzh. nat. br. fol. 1. C. whom see also fol. 6. of a speciall Writ of right in London, otherwise called a Writ of right according to the custome of London. This Writ is also called Breue magnum de Recto, ¶ Regist: orig: fol: 9. A. B. and ¶ Fleta li. 5. ca. 32. § 1. A Writ of right close, is a Writ directed to a Lord of auncient Demesne, and lieth for those which hold their lands and tenements by charter in fee simple, or in fee taile, or for terme of life, or in dower, if they be eiected out of such lands, &c. or disseised. In this case a man or his heire may sue out this Writ of right close directed to the Lord of the auncient Demesne, commanding him to doe him right, &c. in his Court. This is also called a small Writ of right, Breue paruum, ¶ Regist: origin: fol. 9. a. b. and ¶ Brit: cap. 120. in fine. Of this see ¶ Fitzh. likewise at large, nat. br. fol. 11. & seq. Yet note that the Writ of right patent seemeth further to be extended in vse, then the originall inuention serued: for a Writ of right of dower, and onely for terme of life, is patent, as appeareth by ¶ Fitzh. nat. br. fol. 7. E. The like may be said of diuers others that doe heereafter follow. Of these see also the table of the Regist: orig: verbo Recto. This Writ is properly tried in the Lords Court betweene kinsmen, that claime by one title from their Auncestor. But how it may be thence remoued, and brought either to the Countie, or to the Kings Court, see ¶ Fleta, lib. 6. cap. 3. 4. & 5. Glanuile seemeth to make euery Writ, whereby a man sueth for any thing due to him, a Writ of right, li. 10. ca. 1. li. 11. ca. 1. li. 12. ca. 1.

b ☞ **Recto de dote,** is a Writ of right of dower, which lieth for a woman, that hath receiued part of her dower, and purposeth to demand the remanent in the same towne, against the heire, or his Gardian, if he be Ward. Of this see more in the ¶ Old nat. br. fol 5. and ¶ Fitzh. fol. 7. E. and ¶ Regist. orig. fol. 3. and the ¶ New booke of Entries, verbo Droyt.

c ☞ **Recto de dote vnde nihil habet,** is a Writ of right, which lieth in case, where the husband hauing diuers lands or tenements, hath assured no dower to his wife, and she thereby is driuen to sue for her thirds against the heire or his Gardian, ¶ Old nat. br. fol. 6. ¶ Regist: orig: fol: 170.

d ☞ **Recto de rationabili parte,** is a Writ that lieth alwaies betweene priuies blood, as brothers in Gauelkinde, or sisters, or other Coparceners, as nephewes or neeces, and for land in fee simple. For example: If a man lease his land for terme of life, and afterward dieth, leauing issue, two daughters, and after that the Tenent for terme of life likewise dieth: the one sister entring vpon all the land, and so deforcing the other, the sister so deforced shall haue this Writ to recouer her part, ¶ Fitz. nat. br. fol. 9. ¶ Regist: orig: fol. 3.

e ☞ **Recto quando Dominus remisit,** is a Writ of right which lieth in case, where lands or tenement that be in the Seigneurie of any Lord, are in demaund by a Writ of right. 10106-2 ☞ **Rector,** is both Latine and English, signifying a Gouernour. In our common Law, I heare that it is lately ouer-ruled, that Rector Ecclesiæ parochialis, is he that hath a Parsonage, where there is a Vicarage endowed; and he that hath a Parsonage without a Vicarage, is called Persona. But this distinction seemeth to be new, and subtile præter rationem. This is called Rout, because they do moue and proceed in Routs and numbers, à Germ: **Rotten**, quo concursus significatur tumultuantium, & rebellantium, in malam enim partem semper vsurpatur hæc vox. Huic vicinum est & Riot etymo eodem gaudens quod vel ex descriptione manifestissimum, quæ talis. Riot is, where three, at the least, or more doe some vnlawfull act, as to beate a man, enter vpon the possession of another, or such like. Cum autem termini sit iuris Anglicani alijs linguis meritò ignoti. Vide **Riot**. L. 10394-2 ☞ **Route** (Routa) is a French word signifying a company or flocke: as (vne grande route de gents, ou de cerfs, i. grex hominum, longa ceruorum series.) It signifieth in our Common Law, an assembly of three persons or more, going on about forcibly to commit an vnlawfull act, but yet doe it not. Westm. part. 2. symb. tit. Indictments, sect. 65. o. Lamb. thus saith of it. A Route is the same, which the Germans yet call Rot, meaning a band or great company of men gathered together, and going about to execute, or executing indeed, any ryot or vnlawfull act. And saith more, that it is said properly of the multitude that assembleth themselues in such disorderly sort, for their common quarels. As if the inhabitants of a towneship doe assemble to pull downe a hedge or pale, to haue their common, where they ought to haue none: or to beate a man, that hath done them some publike offence, or displeasure. But the Statute of 18. Ed. 3. stat. 1. cap. vnico, which giueth processe of outlawrie against such as bring Routes into the presence of the Iustice, or in affray of the people, and in the statute of 2. Rich. 2. cap. 6. that speaketh of riding in great routes, to make entrie into lands, and to beate others, and to take their wiues, &c. doe seeme to vnderstand it more largely. And it is a Route, whether they put their purpose in execution or no: if so be, that they doe goe, ride, or moue forward their meeting. ¶ Brooke, tit. Riot. 4. & 5. So (as it seemeth) a Route should be a speciall kinde of vnlawfull assembly: and a riot the disorderly fact committed generally by any vnlawfull assemble: the one, that three persons, at the least be gathered together, : for so it is commonly taken at this day, as I haue learned: the other, that they being together, doe breed disturbance of the peace, either by signification of speech, shew of armour, turbulent gesture, or actuall and expresse violence: so that either the peaceable sort of men be vnquieted, and feared by the fact, or the lighter sort and busie bodies emboldened by the example. Thus farre Lamb. in his Eirenar. lib. 2. cap. 5. &c. Where you may reade more worth the noting, though too long to be copied out. See **Riot**, and vnlawfull assembly. ¶ Kitchin giueth the same definition of a Route, fol. 20.
